Direct supply arrangements to Western Australia

Phebra is pleased to announce new direct supply arrangements to Western Australia effective immediately.

Many of Phebra's registered pharmaceutical products are already available via the major pharmaceutical wholesalers in Western Australia. Products available under Schedule 5 of the Therapeutic Goods Administration Regulations* can be ordered directly from Phebra by contacting their Customer Service Team in Sydney.

Phebra's new distribution service means that orders placed with Phebra prior to 12.30pm (EST) on Monday through to Thursday will be delivered using overnight delivery service to major centres in Western Australia.

"The new direct supply arrangements show our commitment to continuously improve the service that we provide to our customers" said Phebra's CEO, Dr Mal Eutick. "We are very pleased to see overnight delivery of our critical medicines now available to our customers in the West".

Phebra is an Australian based speciality pharmaceutical company.

At Phebra, we create critical medicines that save and improve lives.
